

10MW Solar Containerized Solar Energy in South America

Overview

Wood Mackenzie's latest report on the South American solar PV market reveals that the region will add 160 GW dc of solar capacity between 2025 and 2034, driven by diversification efforts, growing power demand, and favourable system economics. As a result, this systematic review presents the progress, new. Mature markets Brazil and Chile will account for 78% of total installations, with small-scale projects (<5 MW) accounting for 48% of total builds in the region, according to Wood Mackenzie.
