

120-foot US Energy Storage Container

Overview

Atlas Copco has developed a modular energy storage system designed to meet the requirements of applications such as rental, events, and telecom. Ideal for any metropolitan job or event. Powered by lithium-ion batteries, this portable product is ready to supply reliable power in. Also, thanks to ECO Controller, Atlas Copco's Energy Management System (EMS), these units can be synchronized to increase the power offering to match the demand. In hybrid mode with a generator, the ZBC range increases the solutions' overall efficiency, accounting for the peaks of power and low. BESS (Battery Energy Storage System) is an advanced energy storage solution that utilizes rechargeable batteries to store and release electricity as needed. The containerized configuration is a single container with a power conversion system, switchgear, racks of batteries, HV C units and all associated fire and safety equipment inside. Get ahead of the energy game with SCU! 50Kwh-2Mwh What is energy storage container?

SCU.

120-foot US Energy Storage Container

ZBP 120-120_Product Reference Sheet

Powered by lithium-ion batteries, this portable product is ready to supply reliable power in challenging situations. It can work in island mode, as a hybrid solution with a diesel generator.
