

# 20-foot French photovoltaic energy storage container

## Overview

---

This 20ft collapsible container solution features 60kW solar capacity and 215kWh battery storage. Built with robust 480W modules, it powers extended off-grid missions, from microgrids to rural factories, ensuring continuous operation even under adverse conditions. Solar Energy Storage Container. The LunaVault paves the way for a sustainable and independent energy future, demonstrating the limitless potential of renewable power systems. The core objective was to reimagine a standard shipping container as a self-contained energy hub, equipped with advanced solar integration, high-capacity. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and mobile operation.
