

# 270 PV panel length and height

## Overview

---

These panels typically measure around 65" x 39" and weigh approximately 40-42 pounds, making them manageable for DIY installations while providing sufficient power for many applications. In 2025, understanding when and why to choose a 270 watt solar panel requires careful consideration of your specific energy needs, available space, and budget constraints. The dimensions of 60-cell solar panels are as follows: 66 inches long, and 39 inches wide. That's basically a 66x39 solar panel. But what is the wattage?

That is unfortunately not listed at all. They features a sleek anodized black frame that is weatherproof and aesthetically pleasing. This reliable solar panel is ideal for homes or businesses requiring a very efficient. Note: Your Enquiry will be sent directly to Solartron Public Co. Solar Panel Series SP250W-270W. Detailed profile including pictures, certification details and manufacturer PDF . ted at all. Manufacture Data Sheet; Installation Manua enhances high-temperature operation. With just the right balance of size, cost, and energy output, the 270 Watt Solar Panel can fit a wide range of needs from supplementing a residential solar system to powering off-grid adventures.

## 270 PV panel length and height

### REC TwinPeak REC270TP BLK Solar Panel

The REC270TP BLK solar panels feature a weatherproof black anodized frame designed to keep its appeal for many years to come. These special 120 HC solar cell PV modules are easy to install with ...

### Standard Solar Panel Sizes And Wattages (100W-500W Dimensions)

Alright, let's have a look at the length and width of typical solar panels, with wattage (very important), and complete with area or square footage (useful when calculating how many solar panels you can fit ...

 Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 16A, Compatible with High Power Modules

 Intelligent Simple O&M

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 30ms
- Compatible with Lead-Acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
