

30kW Energy Storage Container for Wastewater Treatment Plants

Overview

Suitable for both municipal and industrial wastewater, they can handle projects of any size, treating wastewater from 50 to 20,000 people for sewage, or 1m³/hr to 250m³/hr for industrial wastewater. The Commercial & Industrial 30kW 54. 2kWh Battery Energy Storage System is a high-performance. Safety: LiFePO₄ batteries are known for their excellent thermal and chemical stability. They are less prone to overheating and thermal runaway, making them a safer choice compared to some other lithium-ion chemistries. Long Cycle Life: LiFePO₄ batteries have a long cycle life, which means they can. The ClearFox® Containerized System is a packaged wastewater treatment plant, custom designed and pre-installed within ISO shipping containers. As a modular solution, it is easily transportable by land or sea, with minimal onsite installation required. • Capable of supporting up to 30KW three-phase output. Designed for efficiency, safety, and reliability, this system integrates advanced lithium iron phosphate (LFP) battery. Energy Storage: Designed to store and manage electrical energy, suitable for applications such as grid stabilization, renewable energy storage, or backup power.
