

# 40-foot photovoltaic energy storage container transaction

## Overview

---

The system can be used to store electrical energy for commercial, industrial, or grid-scale applications. It is equipped with battery room, transformer, controller, HVAC, and other necessary equipment to store and distribute power when needed. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched. The container system is equipped with 2 HVACs the middle area is the cold zone, the two side area near the door are hot zone. PCS cabin is equipped with ventilation fan for cooling. \$774,800 Solar Compatible! 10 Year Factory Warranty 20 Year Design Life The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the voltage. BESS containers are more than just energy storage solutions, they are integral components for efficient, reliable, and sustainable energy management. Housed in a 40-foot container, this unit combines advanced lithium battery storage with high-efficiency inverters and.

## 40-foot photovoltaic energy storage container transaction
