

# 60kW inverter size

## Overview

---

The Sol-Ark 60K-3P-480V-N is a 60,000 watt (60kW) three-phase 480Vac output and 97.5% efficiency hybrid inverter that works grid-connected or off-grid for most commercial installations. The single unit operates as a power inverter, battery charger. 8% peak. See Installation Guide for more details on sizing array strings. The highest input voltage is based on the open-circuit voltage of the array at the minimum design temperature. Nicely packaged for added efficiency. With Sol-Ark's remote access features and app you are never out of touch to quickly repair or adjust any system without being on site. Adopt 5/6 MPPT design to provide a more flexible configuration scheme and higher generation efficiency.

## 60kW inverter size

50KW modular power converter

**Flexible Configuration**

- Modular Design, Expanding as Required
- Small/Light, Wall Mounted
- Installed in Parallel for Expansion

**Powerful Function**

- Support P1+HSS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

**Reliable Protection**

- Outdoor IP55 Design
- Surge Protection Function Equipped

### Sol-Ark > 60,000 Watt 480 Volt 3 Phase Hybrid Inverter

Boosts PV energy without increasing PV array size and reduces storage inverter ...
