

6kW off-grid solar power generation system solution

Overview

The 6kW Split Phase 120/240VAC Off-Grid Solar System is a complete, high-performance energy solution designed for residential homes, cabins, farms, and backup power applications. This system combines a Growatt SPE6000US 6000W off-grid inverter, 10kWh lithium battery storage, and a 4400W bifacial. Are you considering switching to a sustainable energy solution for your home or business?

The 6KW Off-grid solar system offers a reliable way to harness solar power independently from the grid, providing clean energy and reducing your carbon footprint. This system is ideal for those in remote areas. 410W Solar Panels x 12 PCS, Inverter, Solar Charger & Battery All-in-one unit, PV combiner Box, PV wire and connectors, Solar Panel Mounting Hardwares 410W Solar Panels x 12 PCS, Inverter, Solar Charger & Battery All-in-one unit, PV combiner B. See more Standalone Working for Off-grid Power Supply.
