18650^{3.7V}
RECHARGEABLE BATTERY Li-ion
2000mAh

GRADE A BATTERY

LiFePO4 battery will not burn when overcharged, over discharged, overcurrent or short circuited and can withstand high temperatures without decomposition.

New database maps large-scale solar projects across the country

Since 2020, DOE's Energy Information Agency has hosted an interactive database with coordinates of the central point of large-scale solar facilities.

Mapping the U.S. Energy Build-Out: An Interactive View of 2025-2030

Over the next decade, more than 260

GW of new electric-generation capacity is planned across the United States -- a scale of investment that will redefine how, where, and when the U.S. produces power.

Solar, battery storage to lead new U.S. generating capacity additions

In 2024, generators added a record 30 GW of utility-scale solar to the U.S. grid, accounting for 61% of capacity additions last year. We expect this trend will continue in 2025, with 32.5 GW of new utility-scale solar ...
