## Overview

---

Yes, most homeowners insurance policies do cover solar panels, but the extent of coverage depends on several key factors including how they're installed, whether you own or lease them, and your specific policy terms. Coverage varies dramatically by installation type: Roof-mounted panels are typically covered under dwelling coverage with higher limits, while ground-mounted systems fall under “other structures” coverage limited to just 10% of your dwelling coverage—potentially leaving expensive systems. The right solar panel insurance coverage ensures your system is fully protected and that you won't face steep repair or replacement costs out of pocket. Whether you already have solar installed or you're planning your project, reviewing your policy now gives you clarity on what's covered, what. Solar installation insurance offers complete protection against an unexpected financial blow, which can be caused by partial or complete damage to the panel system, theft, or an accident directly related to the solar installation. Always talk to an insurance agent about the.
