

# Austria wind power battery cabinet

## Overview

---

Although is surrounded by land and is really hilly, preconditions permit the utilization of . First calculations on the basis of wind measuring data assessed at the meteorological stations in the early 1980s rendered the surprising result of annually approx. 6,600 to 10,000 (GWh) of technically exploitable wind energy potential in Austria. Austria ranked as the world's seventeenth largest producer of wind power with an installed
