

Automatic lifting installation machine for photovoltaic panels

Overview

The Solar Panel Lifter system allows easy installation and manipulation of solar panel modules in field via attachment to a variety of mini-excavators. This system reduces worker fatigue and wind gust concerns, increases worker safety, and gently handles the delicate modules The Pallet Curler. The Fluke Module Lift™ is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. The device uses your existing fiberglass Werner or Louisville extension ladder. A patented module “hook” attaches to the edge of a PV module frame and. Companies like Moog Construction, the AES Corporation and Ozzie's have all released new solutions that take over the most strenuous tasks of lifting and placing solar panels on miles of ground-mounted racks. The different solutions offer varying levels of autonomy, from assisting with lifting heavy. Handling solar panels is easy and efficient with UniMove solar panel lifters.

Automatic lifting installation machine for photovoltaic panels

Solar Panels

Handling solar panels is easy and efficient with UniMove solar panel lifters. Everyone can lift and tilt large solar panels, powered by vacuum technology. UniMove offers a solar panel lifter for every step ...
