

# Bangladesh s latest new energy storage policy

## Overview

---

Bangladesh's government has proposed exempting renewable energy equipment, including energy storage systems, from import duties and value-added tax (VAT) under its draft Renewable Energy Policy 2025. If approved, the provisions would take effect upon publication in the country's. The Bangladesh government's approval of a new Renewable Energy Policy that sets higher targets of 20% and 30% electricity generation from renewables by 2030 and 2040, respectively, is a welcome step towards advancing the energy transition. The sudden shift to competitive bidding and the suspension of more than 30 renewable energy projects have cost developers dearly. "The approved policy is her by 2025" shall come into effect immediately. The GoB's strategic objectives of energy security, reliability and availability of modern electricity, environmental protection, sustainable. The Ceylon Electricity Board (CEB), Bangladesh's state-owned power utility, has launched a competitive bidding process for large-scale battery energy storage system (BESS) projects aimed at stabilizing the national grid as more intermittent renewable sources come online.
