

Benin microgrid operation

Overview

CEI Africa and Energise Africa mobilized \$2.9 million to finance nine rural solar mini-grids in Benin. The projects will supply continuous electricity to about 4,700 households and local businesses outside the national grid. The financing combines secured debt and results-based grants to support.

Thursday, J, Cotonou, Benin - The Government of Benin, in partnership with the United Nations Development Programme (UNDP) and with financial support from the Global Environment Facility (GEF), officially launched Benin's national implementation of the Africa Minigrids Program (AMP). Generale du Solaire is a solar project developer and an Independent Power Producer active in Europe, Africa and Middle East. The mini-grids are part of the Millennium Challenge Account - Benin II Program's Off-Grid rural areas of Benin by 2023. As already stated above, a microgrid includes various renewable energy sources, which can be.
