

Big Solar Power Project

Overview

The largest solar power plant in the world is the Bhadla Solar Park, which was completed in 2020. Pavagada Solar Park (Tumkur district, Karnataka) is a large grid-connected plant with a capacity of 2,050 MW, commissioned mostly by 2019. The state government and multiple independent developers developed the project under a “wasteland lease / solar park” strategy. The project is run by the Karnataka Solar Power Development Corporation, a joint venture between Karnataka Renewable Energy Development Ltd and the Solar Energy Corporation of India. 6 GW capacity - equivalent to Singapore's entire land area and capable of powering millions of homes annually. Unprecedented Scale Growth: Mega solar. The scale of solar projects in the United States keeps growing, with September 2025 marking several major milestones. Solar accounted for 54% of all new.
