

# Botswana Battery Agent Energy Storage

## Overview

---

The World Bank Group has approved plans to develop Botswana's first utility-scale battery energy storage system (BESS) with 50MW output and 200MWh storage capacity. By 2030, 140MW of BESS will be needed to support the uptake of renewable energy generation. CATL to supply Grenergy (LFP) battery storage for the project. This article explores how these systems work, their economic benefits, and real-world applications in Botswana's energy sector. Hybrid solar-storage systems.
