

British bifacial solar panel manufacturers

Overview

Several manufacturers are currently leading the bifacial solar panel market in the UK. Notable names include Canadian Solar, Longi, Trina Solar, and Yingli Solar. These companies are known for their extensive range of bifacial solar modules and their commitment to high-efficiency. The average 4kW bifacial system will cost £5,500 - £6,600, and could save you £860 per year on your electricity bills. Bifacial panels are highly efficient at capturing solar energy, potentially increasing your solar panels' output by up to 30%. Anglo Solar supplies superior quality Solar PV modules made to UK standards with British warranty, service and support. Anglo Solar is proud to be 100%. ☐☐Upgraded V3: 48V 100Ah Rack Mount Battery Up to £769. Copyright ©. The solar panel manufacturers in the UK continue to witness sustained growth in the country's solar industry. According to Blackridge Research's Global Solar PV Market Report, about 18 GW of solar capacity was installed as of Q1 2025.
