

Bulk purchase of low-voltage photovoltaic cabinetized cabinet

Overview

For new energy projects of different sizes, our AC low-voltage grid-connected cabinets can provide customized solutions. Our Low Voltage Cabinets offers exceptional quality within the Power Distribution Cabinet & Box category. This type of distribution cabinet is applicable to AC 50Hz power systems with a rated working voltage of 380V and a rated working current of 3150A, suitable for energy conversion. It can be used in solar photovoltaic power generation systems, and can also be used to convert, distribute and control electrical energy between photovoltaic inverters and transformers or loads. Wide current coverage, up to 4000A, breaking capacity up to 80KA. It is suitable for low-voltage grid-connected applications such as commercial & industrial rooftop PV plants and residential PV systems, ensuring safe. The power distribution cabinet can directly control the start and stop of downstream electrical equipment without the need to operate the equipment itself separately, and is especially suitable for equipment management in large-scale, long-distance, or high-risk scenarios.

Bulk purchase of low-voltage photovoltaic cabinetized cabinet

HLBWG Photovoltaic Grid-Connected Cabinet

HLBWG Photovoltaic Grid-Connected Cabinet It can be used in solar ...
