

Can energy storage cabinets be installed in Ottawa

Overview

A city committee passed new regulations Thursday that lay out the ground rules for companies looking to build battery energy storage facilities in Ottawa, but residents are split on whether the new rules go too far — or not far enough. UPDATED: City councillors unanimously approved the new rules for battery energy storage facilities at their meeting on Feb. On , the IESO announced that ten proposed BESS projects were. Changes have been made to the city's Official Plan and zoning bylaws to create a building for storing electricity in off-peak hours from the grid. They enable you to harness renewable energy and store it for later use, such as when it's dark out or during outages. Batteries can also help manage electricity costs by storing power.
