

Compact power station factory in canberra

Overview

Ekus Energy will design, build, run, and ultimately own the 250-megawatt battery, which will be located at Williamsdale, south of the Tuggeranong town centre. The large-scale battery energy storage system (BESS) will provide at least 250 megawatts (MW) of power. This is enough energy to power one-third of Canberra for two hours during peak demand periods. The Big Canberra battery. The Big Canberra Battery will be one of the largest in Australia -- able to power up to 23,400 homes with their daily energy use, on a single charge. Canberra Times: ground breaking ceremony, plugging in profits from a big battery.
