

Croatia Solar Panel Project

Overview

Croatia's state-owned energy company, Hrvatska elektroprivreda (HEP), is set to construct 90 rooftop solar power plants by 2026. Croatia plans to allocate €25 million (\$25.7 million) for public sector solar plants and heat pumps, alongside a €10 million residential solar tender, as part of a €652 million renewable energy and decarbonization package. The project will cut CO₂ emissions by about 6,400 tonnes a year. The European Bank for Reconstruction and Development (EBRD) is supporting Croatia's green energy transition with a senior non-recourse project finance loan of up to. Solar PV capacity accounted for 16. This is expected to contribute 33. Of the total global. Croatian Prime Minister Andrej Plenkovic (2nd R, Front) and Chinese Ambassador to Croatia Qi Qianjin (2nd L, Front) visit the construction site of the Korlat solar project in Korlat, Croatia, on . However, structural and legal challenges remain, hindering the sector's momentum.
