

Cyprus light new energy solar air conditioner

Overview

Solar-powered cooling solutions are the solution to rising temperatures and the pressing need for energy efficiency technologies, the photovoltaics systems are emerging and transforming how we stay cool on this Mediterranean island. Seamless comfort in every season with complete heating and cooling built for modern living. With the widest operating range. With 320 sunny days a year, Cyprus is ideal for solar energy. A photovoltaic system can help you significantly reduce these costs and pays for itself in 3-4 years. To date, hundreds of residential consumers have entrusted the Group with energy solutions of photovoltaic systems, electric vehicle chargers and cooling, heating and ventilation. Cyprus is the island of the sun, known for its bright light, warm climate, and abundance of sunny days.
