

Cyprus solar power generation and solar container prices

Overview

Current pricing runs €800-1,000 per kWh installed - a 10kWh system totals €8,000-10,000 before grants. Which simply means payback in 3-5 years at current electricity. Cyprus introduces energy storage subsidy scheme The primary goal of the new subsidy scheme, argues the ministry, is to reduce the cost of electricity on the island. This goal, adds the ministry, will be met because storage units will absorb power that is currently been. The combination of high solar irradiation, government subsidies, and rising electricity prices makes solar energy a lucrative investment. Households and businesses are constantly searching for ways to reduce their monthly bills. Wondering what a solar container system costs?
