Dakar rooftop solar power generation system

Senegal: Clean Energy from Solar Systems

Step by Step Towards Renewable Energies
The First Large-Scale Solar-Pv Plants in Senegal
Follow-Up Projects in Kaél and Kahone
Our Partners
This project consists of two pioneer photovoltaic systems. Both Solar-PV plants commissioned in 2017 and are connected to the national power grid. The project sites located near the village Méckhé in the west of the country. The excellent solar radiation conditions make it possible to expect an average annual electricity production of 50 GWh per So
