

Electricity distribution gambia

Overview

The National Water and Electricity Company (NAWEC) supplies about 50% of The Gambia's electricity. The other 50% comes from two Independent Power Producers (IPPs) and a regional cross-border interconnection with Senegal. Access reliable electricity generation and distribution services in Gambia: MV/LV networks, substations, transformers, industrial and building wiring, and 24/7 maintenance. Use the communication power of Go Africa Online and its traffic of over 800,000 visitors per month to promote your business. The Gambia is rapidly advancing its electrification strategy with a suite of large-scale infrastructure projects focused on grid expansion, rural access and renewable energy integration. Nani Juwara, has announced that the government is on course to achieve 90% electricity coverage by the end of 2025, as part of its ambitious goal to deliver universal access to electricity for all Gambians by the close of 2026.
