ENERGY STORAGE SYSTEM

Overview

In 6 steps, this resource introduces organizations to a general process to contextualize the many different financing options, ultimately facilitating an informed selection of financing mechanisms. Step 1 discusses the importance of establishing clear organizational preferences. Issued by Sandia National Laboratories, operated for the United States Department of Energy by National Technology & Engineering Solutions of Sandia, LLC. Neither the United States. This Note explains how project sponsors can monetize BESS projects, which store electricity during periods of high supply and release it when demand is high. Global energy storage capacity additions exceeded 15 GW in 2024, with lithium-ion battery costs declining 90% over the past decade, thereby driving demand for project financing. Project finance is an exercise in risk allocation.
