Overview

A strategic plan has been uncovered to revive Syria's energy sector through collaboration with US companies, focusing on infrastructure rehabilitation, energy security, and economic integration. The agreement, signed on Thursday by the Ministry of Energy, will see the development of four combined-cycle gas turbine (CCGT) power plants in the provinces of Deir ez-Zor, Hama (Mhardeh and Zeizoun), and Homs (Tirfawi), 963 writes. In a significant step toward rebuilding its war-damaged. In a historic step toward rebuilding a nation scarred by years of conflict, Syria has embarked on an ambitious journey to restore its energy sector and revitalize its economy. Within that figure, around \$10 billion would rehabilitate oil and gas operations including wells, pipelines, refineries, and. Syria's energy sector undergoes a transformative process after a decade of conflict, transitioning from severe damage toward a delicate recovery.
