

Financing for kyrgyzstan foldable waterproof cabinet project

Overview

2 (Xinhua) -- The Asian Development Bank (ADB) on Monday said it has approved a financing of 22.58 million small expenditure financing facility (SEFF) that will support activities to boost project readiness and make project implementation more efficient and sustainable in the Kyrgyz Republic. The KyrSEFF loans are designed to finance projects aimed at improving energy and water efficiency, as well as addressing key environmental challenges in the country, including water shortages, erosion, and soil degradation. DemirBank continues to provide loans under the Green Economy Financing Facility. This report was commissioned by the United Nations Economic and Social Commission for Asia and the Pacific (ESCAP) and aims to conduct in-depth national study and prepare a report on infrastructure financing in Kyrgyzstan. The projects include a range of initiatives aimed at improving infrastructure. Objective: Create a holistic, comprehensive and integrated financing strategy, with the ambition to improve the efficiency, effectiveness and transparency in the use of public funds and governance of private finance to support the implementation of Kyrgyzstan's National Development Strategy (NDS).
