After hundreds of South Korean workers were detained in a massive immigration raid on the construction site of an electric vehicle battery plant in the US state of Georgia, social media posts falsely claimed the automaker had announced it had cancelled plans to complete the project. Hyundai's chief. On Septem, American law enforcement conducted an immigration raid at the Hyundai Motor Group Metaplant America, an electric vehicle (EV) production site in Ellabell, Bryan County, Georgia, United States, detaining approximately 475 workers. [1][2] The raid was described as the largest. New information is emerging about the construction at the HL-GA Battery Company facility on the Hyundai megasite following last week's immigration raid. Sorry, this video is not available, please check back later. Escape will cancel and close the window. Freyr sent formal notice to the Coweta County Development Authority on 21 January notifying it of its decision to discontinue plans to build a battery. Battery packs are the system-level assemblies that integrate individual cells into modules and packs with the necessary electronics, cooling, and safety structures. While cells define chemistry and energy density, packs determine how effectively that energy is managed, delivered, and protected in.
