Overview

This article highlights five top ground-mount options, drawn from reputable brands, to help American homeowners compare features like adjustability, load capacity, and installation versatility. This is an easy-to-assemble kit for ground mounted PV solar array holding 12 panels in a four vertical (landscape) by three across setup at 20 degree tilt. With costs climbing across the board, price is more of a concern than ever. When roof installation is not possible, this kind of bracket is the best choice: easy installation, solid and durable, adjustable angle. Engineered in Germany, these galvanized steel screws are ideal for sloped, rocky, or difficult terrain.
