

# Guinea-bissau energy storage project construction

## Overview

---

The project involves the construction of several solar power plants near the capital city of Bissau, including a 30 MWp solar power plant. These plants will be equipped with battery storage systems to ensure efficient energy distribution and support the electricity grid. Guinea-Bissau grid scale battery storage capacity Approved by the bank's Board of Executive Directors, the project entails the development of 30 MW of solar parks with battery energy storage systems as well as the enhancement of List of Operational (Completed) Battery Energy Storage System 5 days. This project aims to provide reliable and affordable energy to the people of Guinea-Bissau by harnessing the power of the sun. With over 200 hectares of land dedicated to solar panels, this project will provide electricity to over 25% of Guinea-Bissau's population while also reducing greenhouse gas. The World Bank, IDA, ESMAP, and GCF are backing Guinea-Bissau's first solar power plants with a \$78.

## Guinea-bissau energy storage project construction
