

Haixi photovoltaic inverter manufacturer

Resistant to -20°C - 55°C high and low temperature.

Overview

Founded in 2011, Shenzhen Haisic Technology Co. is a national high-tech enterprise dedicated to the research, development, and production of energy storage products such as LiFePO₄ battery packs, commercial & industrial energy storage, residential energy storage. Founded in 2011, Shenzhen Haisic Technology Co., headquartered in Hangzhou, Zhejiang province, is a high-tech enterprise with research & development, manufacturing and sales, focusing on photovoltaic power generation system. The core products include PV inverters, assorted data loggers and intelligent energy. Haisic has specialized in the design and manufacture of solar battery series products for more than 12 years and has accumulated rich production experience. It has leading-scale basic communications facilities and is committed to building an intelligent world where everything is connected. Committed to providing professional customized solutions for global customers in the fields of Solar. The SUN2000 Series is Huawei's leading inverter line, offering multi-MPPT tracking, AI-powered fault detection, and arc fault protection. It's designed for high-efficiency performance and proactive safety.

Haixi photovoltaic inverter manufacturer

Product , Solar Energy Storage System Factory

Haisic has specialized in the design and manufacture of solar battery series products for more than 12 years and has accumulated rich production experience.
