

# High-voltage outdoor cabinet for Australian microgrids used in water plants

## Overview

---

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO<sub>4</sub> batteries with high thermal stability, extensive cycle life (up to 6000 cycles), and stable performance under load. Scalable Energy Storage: Ideal for small-to medium-scale commercial and industrial photovoltaic storage, diesel storage, and hybrid systems. We help our customers, partners and equipment manufacturers to improve energy efficiency, asset reliability, productivity, safety and performance. At Apex Energy Australia, we offer state-of-the-art Battery Energy Storage Systems (BESS) tailored to meet diverse energy needs. Our solutions range from bespoke designs to pre-packaged high-voltage (HV) systems sourced from trusted international partners, ensuring optimal performance for large. Energy storage enables microgrids to respond to variability or loss of generation sources. Getting it wrong is an expensive and dangerous mistake. Download the use case below to discover: How Rolls-Royce addresses the challenges of fluctuating.

## High-voltage outdoor cabinet for Australian microgrids used in water

---

### Microgrid & Hybrid Solutions

By integrating combined heat and power (CHP) plants, two battery storage containers, and advanced controls, this microgrid offers a reliable and cost-efficient power solution for industrial usage.

---

### Weather proof Enclosures

The Outdoor Modular System has been extensively tested in simulated extreme weather conditions to provide easy design verification and ensure maximum durability in outdoor environments.
