

# How does Trina identify the level of photovoltaic panels

## Overview

---

Trina Solar holds the prestigious Tier 1 designation from Bloomberg New Energy Finance, an important marker of financial stability and reliability. Market Leadership with Scale: Trina Solar has established itself as a top-3 global solar manufacturer with over 205GW of cumulative shipments and operations in 100+ countries, demonstrating the scale and reliability that makes it a Tier 1 bankable choice for large-scale solar projects in 2025. Trina Solar employs sophisticated solar technologies—PERC, bifacial. Breaking world records for crystalline silicon cell efficiency and module power output since 2011. The industry's first module manufacturer to mass produce TOPCon modules with power output exceeding 700W. They focus on producing reliable high-output modules primarily for large-scale projects, with a strong emphasis on. Identify your energy goals before choosing a Trina Solar panel. Focus on wattage, efficiency, and durability to meet your needs. Higher wattage panels generate more power with fewer units, ideal for limited areas.
