

How long can coffee capsules be stored in a storage cabinet

Overview

Unopened coffee pods last between 6 and 12 months when stored properly. Knowing the types and components helps you understand their shelf life and maintain optimal flavor. From temperature control to the right containers. The best way to store coffee pods is to keep them in an airtight container in a cool, dry, and dark place. Whether you're looking purely for functional storage or storage with a bit of flair, Nespresso has a coffee pod storage option to suit. Whole beans kept in airtight, opaque containers at room temperature typically stay at peak flavor for 2-4 weeks after roasting.
