

How long can milk in the locker last

Overview

That being said, milk can safely sit out for up to two hours. Help your milk last longer by storing it at the back of the fridge on a shelf near the middle or bottom. As for your fridge door. Some sources say milk is still good past its expiration date, while others say to toss it out after just a few days of opening it. By the way, this is why Americans refrigerate their milk and Europeans don't. Hit the sweet spot with chilly goodness! Store milk in the 32°F to 40°F (0°C to 4°C) zone. Beyond this, the risk of bacterial growth increases significantly, leading to spoilage and potential health risks.
