

How many photovoltaic panel projects are there

Overview

The latest release includes data on 5,712 facilities covering 49 states (plus the District of Columbia). The United States Large-Scale Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U. As of February 2026, there are 4,155 planned solar projects in development in the US, according to Cleanview's project tracker. Their total planned capacity is 693,408 MW. Click any of the links below to. The Global Solar Power Tracker is composed of worldwide facility-level data on utility-scale (1 MW+) solar photovoltaic (PV) and solar thermal facilities, as well as country-aggregated distributed (<1 MW) solar PV data. Vast, unstoppable, and life-giving.

How many photovoltaic panel projects are there

Planned Solar Projects in the United States

As of February 2026, there are 4,155 planned solar projects in development in the US, according to Cleanview's project tracker. Their total planned capacity is 693,408 MW. Of these, 859 planned solar projects are ...
