

# How much does a container house for power generation equipment cost

## Overview

---

Prefab container homes usually cost \$150 to \$300 per square foot. Size and layout are important for the price. Although this alternative is pricier, it can offer a neater appearance and superior endurance over an extended period. On the other hand, used containers can significantly reduce your initial costs. A one-trip High Cube container (9'6" tall) costs around \$3,000 for a 20ft unit and \$4,300 for a 40ft unit from major ports like Long Beach. " Three proven methods from recent deployments: Q: How does container size affect costs?

A: Standard 20/40ft containers reduce engineering costs 15-20% vs custom designs.
