

# How much does a lithium battery for household energy storage cost in Latvia

**Outdoor Cabinet BESS**  
50 kWh/500 kWh Battery Storage System  
Industrial and Commercial Energy Storage

The image shows two views of the Outdoor Cabinet BESS. On the left is a closed, white cabinet with a grey door and a small control panel. On the right is the same cabinet with its doors open, revealing internal components including battery packs, inverters, and control units, all connected by yellow cables. The background of the image shows a landscape with wind turbines and a sunset sky.

- All In One**  
Integrating battery packs
- High-capacity**  
50 - 500kWh
- Degree of Protection**  
IP54
- Operating Temperature Range**  
-20~60°C(Derating above 50 °C)
- Intelligent Integration**  
integrated photovoltaic storage cabinet
- Rated AC Power**  
50-100kW
- Altitude**  
3000m(>3000m derating)

## Overview

---

Prices typically range between €150/kWh to €450/kWh, depending on technology and application. Let's unpack what drives these numbers and how regional factors shape the market. Battery Technology Lithium-ion: €600–€1,200/kWh (high efficiency, long lifespan). Battery storage is key to achieving this without. In this work we describe the development of cost and performance projections for utility-scale lithium-ion battery systems, with a focus on 4-hour duration systems. The projections are developed from an analysis of recent publications that include utility-scale storage costs. Key Factors Affecting Battery Prices Battery Ever.
