

# How much does it cost to have elevated photovoltaic panels

## Overview

---

Solar panel installation cost averages \$27,181 for a standard home, with most homeowners spending between \$18,351 and \$36,409. Prices vary based on system size, panel type, and installation complexity. Your actual cost depends on your home's energy needs, roof characteristics, location and other factors, all of which we'll break down in. Each year, the U. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U. solar photovoltaic (PV) systems to develop cost benchmarks. These benchmarks help measure progress toward goals for reducing solar electricity costs. NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. is between \$15,000 and \$25,000 before incentives.
