

How much does it cost to install solar panels for photovoltaic power generation

Overview

Most homeowners spend between \$12,600 and \$33,376 to install a complete residential solar system in 2026, with the national average at \$19,873 before incentives. Switch to solar with a system built for you. Join over 8,000 people who received a free, no obligation quote in the last 30 days. Solar panels can lower your electricity bill by 75% or more, but the upfront investment is significant. This typically translates to about \$2. NLR's PV cost benchmarking work uses a bottom-up. Solar panel installation means adding a photovoltaic (PV) energy system to your home, mounted on your roof or property. You can pay as little as \$3,500 or as high as \$55,000, depending on your project scope.
