

How much does nicosia outdoor solar power hub cost

Overview

Investment costs range between €7,000 and €15,000. Calculate €1,400 to €1,800 per installed kilowatt peak (kWp). For an 8 kW system, this means: After deducting the €1,500 government grant, the net investment reduces to €9,500. Cyprus offers ideal conditions for photovoltaic systems with 340 sunny days per year. The combination of high solar irradiation, government subsidies, and rising electricity prices makes solar energy a lucrative investment. Households and businesses are constantly searching for ways to reduce their monthly. With over 300 sunny days annually, Nicosia has become a hotspot for rooftop solar installations. The absolute maximum that is allowed in the net metering scheme for residential houses is 10. Nowadays, energy efficiency is a very important factor when purchasing a property.
