

How to extract power from the container

Overview

Super Cheap Way to get 120V Power in a Shipping Container! - YouTube.
Super Cheap Way to get 120V Power in a Shipping Container! - YouTube.
Unlocks the door to the Saferoom Exfil extraction on Interchange. The Object #11SR keycard (#11SR) is a Keycard in Escape from Tarkov. The door will lock itself after closing, and extract any. It's very cool just not worth it at all for the amount of legwork for a couple extra weapon boxes Thanks, although it kinda useless and leave you vulnerable for long travel route Question do we need to do the first part to open the door and get to the switch inside or the door is always open but. You'll need the 21WS keycard to open it. Don't listen to the guy who tells you to go to saferoom, he confused the keycards You need to use the #11sr lab keycard in burger spot, go down to the safe room extract activate the switch and then run to that container. Located south west of the mall in a container lot on Interchange. On the red TerraGroup container that is stacked on top of. This guide should help you understand the basics of the map, and how to get the most out of your runs.

How to extract power from the container

Extracting resources from a Supply Depot

According to the in-game descriptions the Supply Depot is actually just a bigger battery. It doesn't store items, it stores power and send it out to extractors that need it. You still need to open ...
