

# Huawei Morocco Hybrid Energy Storage Project

## Overview

---

On , the Masen Agency announced a new pilot project called the “Morocco Energy Storage Testbed Project,” validated by the World Bank. Deployed at the iconic Noor Ouarzazate site, this program aims to experiment with different technological storage solutions to. Are lithium battery Gigafactories a good idea in Morocco?

The establishment of lithium battery gigafactories in Morocco holds immense promise for the country's economy and energy sector. These facilities will not only produce lithium batteries for electric vehicles and renewable energy storage. Chinese telecommunication company Huawei has taken a major step towards advancing Morocco's energy transition effort with a new collaboration with the country's National Office of Electricity and Drinking Water (ONEE). The solar system will have a capacity of 1. This agreement reflects the commitment of the National Office of Electricity and.
