

Huawei UAE Power Market Energy Storage

Overview

The project combines 400 MW of solar photovoltaic capacity with 1.3 GWh of energy storage, forming the world's largest 100% renewable PV-plus-ESS microgrid. Huawei's Intelligent Power Distribution Solution contributes to the implementation of transparent sensing of power distribution transformer districts and the enhancement of intelligent service capabilities, providing users with a greener, more stable and safer power consumption experience. With the ambitious UAE Energy Strategy 2050 aiming for 50% clean energy by 2050, the nation is investing. In 2022, our total capacity reached 5GWh, of which 4.8GWh was for large-scale energy storage. Australia. July 2025 - Dubai — As the world rapidly shifts toward renewable energy, the demand for more advanced, stable, and intelligent power systems has never been greater. Leading this transformation is Huawei, which continues to expand its grid-forming energy storage strategy with new global deployments. The UAE Energy Storage Systems Market stands at the forefront of the nation's transition towards sustainable energy solutions.
