

# Huawei Ukraine Energy Storage Battery Project

## Overview

---

The project in the Volyn region involves the construction of an energy storage system (ESS) with a capacity of 8.4 MW and a storage capacity of 10 MWh, utilizing the Huawei Smart String ESS LUNA2000 technology, one of the most advanced solutions available on the market. Huawei Ukraine, a partner of the Association of Solar Energy of Ukraine (ASEU), and Ecotech Invest have signed a memorandum of strategic cooperation in the field of renewable energy. This is not about household solutions, but about intelligent commercial systems that allow enterprises to accumulate surplus electricity, use it. Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe.
