

# Huawei produces solar panels in Accra

## Overview

---

Huawei Digital Power Technologies, a unit of Chinese multinational tech giant Huawei, has signed a deal with Ghana-based solar developer Meinergy Technology to build a 1 GW solar plant coupled with 500 MWh of storage in Ghana over the next years. Huawei Ghana has launched a new wave of clean energy innovations, unveiling the world's first hybrid cooling Energy Storage System (ESS) at its 2025 Partner Summit and Commercial & Industrial Product Launch in Accra. Themed “Lighting Up A Greener Ghana”, the event showcased solar solutions designed. In 2020, Ghana's Ministry of Communication signed a financing agreement with the Chinese technology company Huawei. Under the agreement, Huawei would deploy 2000+ RuralStar sites for Ghana. The sites would provide voice and data services for over 3.4 million people in underserved and unserved. Huawei has launched its industrial and residential smart photovoltaic (PV) system in Ghana, marking a significant step in the development of the new era energy industry.
