

Huawei solar panels in Northwest Morocco

Overview

Join us as we explore how Huawei's smart PV solutions are powering the Tangier 30MW Solar Power Plant, a key project driving Morocco's green energy future. The solar market in Morocco remains a very dynamic market where photovoltaic remains a very promising success that calls for more than ever, Huawei is registering itself in the Moroccan photovoltaic market. Huawei and Green Power Technologie are taking part in the 12th edition of Solar Expo Maroc held from February 27 to 29, 2024 at the Casablanca International Fair. The Moroccan Solar Plan is regarded as a milestone on the country's path towards a secure and sustainable energy supply. The company has established a robust ecosystem connected to tier-one and tier-two distributors, Jad Zhao, the General Manager of Huawei's Digital Power division in Morocco said. North America leads with 40% market.
