

Is it waterproof to place a solar inverter outdoors

Overview

Yes, solar inverters can be installed outdoors. When installing, avoid exposing them to excessive sunlight or high temperatures. In fact, most grid-tied inverters are designed for outdoor use, although most off-grid inverters are not weatherproof and are generally mounted indoors, close to the battery bank. However, it is crucial to protect them from extreme weather and potential physical damage. Before we dive into the practicalities of installing a solar inverter outdoors, let's take a moment to understand this vital piece of. In determining whether a solar inverter will be able to handle rain, snow, or moisture, the IP (Ingress Protection) rating is your safest bet. If you've got a small house or apartment then you might be thinking of keeping your inverter outside, somewhere like a balcony.
