

# Is solar power generation in rural areas a scam

**SMART GRID & HOME**

## Overview

---

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. If it sounds too good to be true, it probably is. Solar energy popularity continues to rise in Northeast Kansas, and scammers follow the potential for sales and look for ways to take advantage of unassuming folks. Fraudsters can pose as legitimate. As the popularity of residential solar power grows, so does the number of scams targeting homeowners eager to. The solar industry's explosive growth has created real opportunities for homeowners to save money and reduce their carbon footprint. But it's also attracted scammers who prey on people's desire to do the right thing for their wallet and the planet. Some use high-pressure tactics, others make. Both Liz Truss and Rishi Sunak have warned of solar panels "filling" the UK's highest quality farmland, joining a chorus of their fellow Conservative MPs who have recently A Review of the Achievements, Weaknesses, and Challenges of Rural Electrification through Solar Home Systems in South Africa. Is rural solar power generated designed to increase energy efficiency. If you're considering whether solar energy.
